

Distinguished Alumni Award - Subir Chowdhury

Subir Chowdhury, a 1993 graduate of CMU's College of Science and Technology, has made significant contributions to the manufacturing industry through his work in quality engineering and management.

Subir got his master's degree in industrial management at CMU, and is currently chairman and CEO of ASI Consulting Group in Livonia.

He is a leading business management author, with nine published books, including *The Power of Six Sigma: An Inspiring Tale of How Six Sigma is Transforming the Way We Work*, *QS-9000 Pioneers: Registered Companies Share Their Strategies for Success*, and *Management 21C: Someday We'll All Manage This Way*.

Most engineering and business schools throughout the world use Subir's engineering and management books in undergraduate and graduate programs.

The American Society for Quality named him one of the "Voices of Quality in the 21st Century." He was honored as "40 under 40" by *Crain's Detroit Business*.

He also has won the Society of Manufacturing Engineers Gold Medal, McDermond III Award for Management Excellence by the American Society for Quality for his leadership as the chairman of the ASQ Automotive Division, Henry Ford II Distinguished Award for Excellence in Automotive Engineering, and the Ralph E. Cross Outstanding Young Manufacturing Engineer Award.
